INTRODUCTION

The Global Funeral Care Foundation has developed GFC with intend to become a globally used currency for the funeral industry. GFC can be used to pay for goods and services from organizations partnering with the Global Funeral Care Foundation. The foundation encourages all non-partners in the funeral industry to adopt GFC as well.

The Global Funeral Care Foundation is developing a decentralized platform to support the global funeral industry by connecting organizations working in the funeral industry on a global scale. The platform supports organizations involved with the funeral industry and people requesting information or services from these organizations.

CROWDSALE TOKEN

- Name of Currency: **GFC**
- Symbol: **GFC**

AFTER CROWDSALE

- Name of Currency: **GFC**
- Symbol: **GFC**
- Emission type: **Proof of Stake**
- Block time: **60 seconds**

Read the white paper to find more information about the platform and the foundation.

SUPPLY

The total supply after the final sale will be 200,000,000 GFC. The circulating supply will be 174,000,000 GFC as result of 26,000,000 GFC being locked to motivate and incentivize the Global Funeral Care Foundation its board of directors, core team, and advisors.

GFC is a Proof of Stake (PoS) currency without hard cap supply. New GFC will be generated to reward holders for maintaining the network and for validating transactions. The holders will be rewarded through Proof of Stake, which is a consensus protocol. The PoS protocol achieves consensus through stakers who validate GFC transactions and create new blocks. The creator of a block will be chosen in a pseudo-random way, depending on how many GFC the staker owns. The collateral to run a Masternode is 60,000 GFC. Significant advantages of PoS include security, decentralization, and energy efficiency.

It will take approximately eight years to generate an additional 170,000,000 GFC through Proof of Stake. This results in a total supply of 370,000,000 GFC by 2026. After the

year 2026 yearly 518,000 blocks will be created. Only 1 GFC will be released when creating a new block, which means that yearly 518,000 GFC will be generated through Proof of Stake.

The Global Funeral Care Foundation avoids devaluation of GFC by burning all GFC transaction fees, which means that all GFC used as transaction fees will be destroyed. More transactions means that more GFC will be burned with a lower inflation rate as result.

After the year 2026 the amount of GFC being burned will be approximately equal to the amount of GFC generated. The supply will become stable and eventually will decrease.

SUPPLY DETAILS *(after final sale)*

○ Circulating supply:	184,000,000
○ Amount locked:	16,000,000
○ Total Supply:	200,000,000
○ Maximum supply:	None

The Global Funeral Care Foundation strives to avoid devaluation by burning all GFC transaction fees.

AMOUNT LOCKED

CIRCULATING SUPPLY

CROWDSALE

The Global Funeral Care Foundation raises funds via a crowdsale, which means that people have the possibility to purchase GFC before being listed on exchanges.

The Global Funeral Care Foundation uses erc20 tokens (GFCS) for the crowdsale. GFCS owners will be able to obtain mainnet coins by sending the GFCS to the address specified by the Global Funeral Care Foundation once the final sale is finished the swap ratio will be 1:1. The foundation believes that rewarding early adopters will help the Foundation grow faster. Therefore the following bonus structure is made to reward those who choose to purchase GFC during the private sale, pre-sale, and final sale.

PRIVATE SALE	PRE-SALE	FINAL SALE	REMAINING
40%	30%	20%	
BONUS	BONUS	BONUS	AIDROP

PRIVATE SALE

GFCS can be bought for \$0.30* during the private sale. The private sale is only available to investors willing to invest a minimum amount of \$10,000.

PRE-SALE

The price of 1 GFCS during the pre-sale will be \$0.35*, which is available to the public. There is no minimum requirement during the pre-sale.

FINAL SALE

The price of 1 GFCS during the final sale will be \$0.40*, which is available to the public. There is no minimum requirement during the private sale.

* The bonus is already included in the price.

REMAINING GFCS

The remaining GFCS will be fairly distributed among investors who bought GFCS.

The Global Funeral Care Foundation accepts Bitcoin, several altcoins, and PayPal as payment option. Do you have another cryptocurrency that you want to invest? Please use an exchange or Shapeshift to exchange your cryptocurrency to Bitcoin or one of the other altcoins accepted as payment option by the Global Funeral Care Foundation (<https://shapeshift.io/#/coins>).

GFCS owners will have the opportunity to exchange their GFCS for mainnet coins from July 1, 2019 to July 15, 2019.

The private sale starts on December 4, 2018 and ends on December 25**, 2018.

There will be 50,000,000 GFCS available for sale with a 40% bonus.

PRICE 1 GFCS \$0.30*

The pre-sale starts on December 26, 2018 and ends on February 28**, 2019.

There will be 40,000,000 GFCS available for sale with a 30% bonus.

PRICE 1 GFCS \$0.35*

The final sale starts on March 1, 2019 and ends on June 30**, 2019.

There will be 70,000,000 GFCS available for sale with a 20% bonus.

PRICE 1 GFCS \$0.40*

** The bonus is already included in the price.*

*** The sale starts on the provided date or when all available coins of the previous sale are sold.*

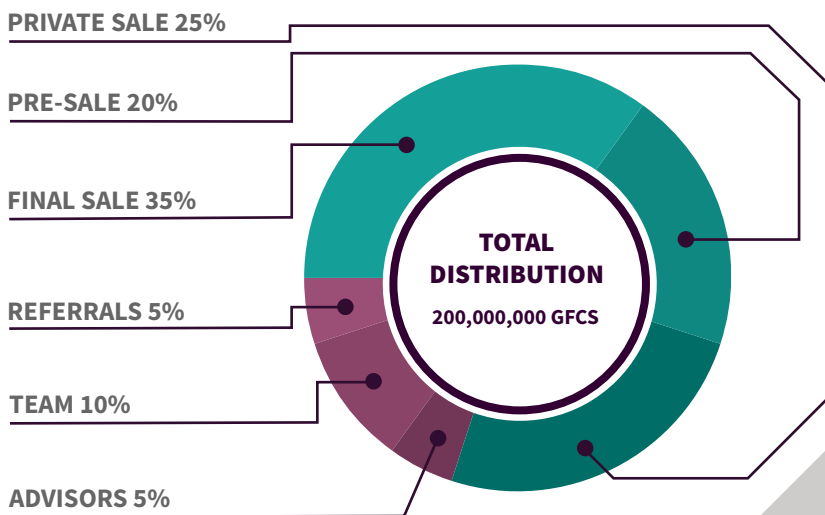

GFC DISTRIBUTION

The foundation will approximately issue 200,000,000 GFCs during the crowdsale.

The Global Funeral Care Foundation will distribute GFCs as follows. In total 80 percent of GFCs issued will be sold during the private sale, pre-sale, and final sale. Furthermore, 10 percent will be used for a referral program. Moreover, 10 percent of GFCs issued will be distributed among the Global Funeral Care Foundation team members and 5 percent of GFCs will be used to incentivize the foundation its advisors.

GFC DISTRIBUTION DETAILS

- Private sale 50,000,000 GFCs
- Pre-sale 40,000,000 GFCs
- Final sale 70,000,000 GFCs
- Team 20,000,000 GFCs
- Referrals 10,000,000 GFCs
- Advisors 10,000,000 GFCs

FUND ALLOCATION DETAILS

1. DEVELOPMENT PLATFORM

2. MARKETING AND SALES

3. OPERATIONAL COSTS

4. EXCHANGE LISTINGS

5. PARTNERSHIPS

6. DONATIONS TO GOOD CAUSES

FUND ALLOCATION

The funds raised through the crowdsale will be used for development of the Global Funeral Care platform, marketing and sales, operational costs, exchange listings, and partnerships. Furthermore 5 percent of raised funds will be donated to good causes that are involved with Funeral Care.

The main aim of the Global Funeral Care Foundation is to decentralize; therefore GFC Masternode holders can choose the good cause by Masternode voting. The general public can add good causes that are involved in the funeral industry by doing proposals on the platform.

Please read the Global Funeral Care white paper to find information on what the Foundation wants to achieve and how much funding is required to reach these achievements.

The funds raised through the crowdsale are technically speaking a donation to help the foundation to reach its goals.

Level 1 - \$0 to \$1,000,000

The funds will be mainly used to develop the platform.

Level 2 - \$1,000,000 to \$5,000,000

The funds will be mainly used to accomplish basic objectives.

Level 3 - \$5,000,000 to \$10,000,000

The funds will be mainly used to create a marketing department and for exchange listings.

Level 4 - \$10,000,000 to \$20,000,000

The funds will be mainly used to fully accomplish all objectives, to employ highly skilled employees and influencers, and powerful marketing tools.

Level 5 - \$20,000,000 to \$57,000,000

The funds will be mainly used to expand operations and to get listed on major international crypto exchanges.

More extensive information on fund allocation can be found in the white paper.

VESTING

In total 30,000,000 GFCS/GFC will be made available to incentivize the Global Funeral Care Foundation its board of directors, core team, and advisors.

To avoid dumping, 16,000,000 of the 30,000,000 GFCS/GFC will be locked till several dates up to 2023. During this period 16,000,000 of these GFCS/GFC will be made available to The Global Funeral Care Foundation its team.

UNLOCK MOMENTS - BOARD & CORE TEAM

PROOF OF STAKE BUDGET SYSTEM

The Global Funeral Care Foundation uses a Proof of Stake budget system, which means that 10% of the funds received through staking will go to the Global Funeral Foundation.

The Global Funeral Care Foundation has calculated how the funds received through the budget system will be divided till 31 December 2025. After the year 2025 the allocation of funds will be mainly chosen by the general public, who can add budget proposals via the Global Funeral Care platform. Masternode holders can make a final decision on by voting on these proposals.

The place where the general public can add proposal will open every year on the first of January. The general public will have the opportunity to add proposal till the last day of November. Masternode holders can vote on these proposals from the first day of December till December 15th. The foundation will publish the allocation of funds every year on the first day of January.

BUDGET SYSTEM 2019 TO 2022

- Development Platform 20%
- Marketing and sales 20%
- Operating costs 20%
- Exchange listing 10%
- Partnerships 25%
- Good causes 5%

BUDGET SYSTEM 2023 TO 2025

- Development Platform 20%
- Marketing and sales 20%
- Operating costs 20%
- Exchange listing 10%
- Partnerships 15%
- Team 10%
- Good causes 5%

GLOSSARY

CROWDSALE

A type of crowdfunding that issues cryptocurrency tokens/coins that will be stored on the user's device.

HARD CAP

A Hard Cap is a limited number on available coin supply.

SOFT CAP

A Soft Cap is a cap on the number of coins produced when a certain condition is met.

PROOF OF STAKE (POS)

A type of algorithm by which a cryptocurrency blockchain network aims to achieve distributed consensus. The PoS protocol achieves consensus through stakers who validate GFC transactions and create new blocks. The creator of a block will be chosen in a pseudo-random way, depending on how many coins the staker owns.

MASTERNODE

A Masternode is a computer wallet that supports the network by hosting an entire copy of the coin's ledger in real time. In return, the Masternode holder will receive crypto coins as a reward.
